The histrict Attorney has subposnaed Presdent Maher and Mr. Reynolds to apthe records of the car's disabilities which were supposed to be filed with them, and if so what they did to remedy the troubles.

"We shan't be content with fixing the blame on the small fry. We are after the big fellows, and if the evidence indicates that these high officials knew about the decrepit condition of Car No. 109 the facts will be preented to the grand jury next week,"

Assistant District Attorneys Isadore Niner and Jacob Goldstein examined the records of the Broadway and Wost 18th Street barn and questioned Thomas Lewis, supervisor of repairs, and Michael J. Scanlon, chief inspector. They said they filed their reports with Superintendent Reynolds, who in turn sends them to J. S. McWhirter, superintendent of equipment, and to President Maher. The records showed that since last November the car had been in and out of the repair shop on an average of twice a month. Lewis said that on May 8 the car was inspected and found fit for operation. Assistant District Attorney Niner said he had been unable to find any report of the inspection.

ALBANY, May 10.—Governor Whitman to-day, in spite of word from Mayor Hylan that they had been disapproved, signed the two bills of Senator Walker permitting the Court of General Sessions of New York county to appoint a court crier and fix his salary. The Governor said the law now provides that the court must appoint clerks and other employes and added that, in the absence of any reasons set forth for the disapproval of the bills it seemed to him "that it was proper for the judges for the Court of General Sessions, elected by the people of the County of New York, to appoint a crier if they so desired."
